

“Any Way You Look At It – It’s Time!”

I'll finish the work
I began the work
at the top of it all
I AM
inside
you'll see
rather than around and behind
if you look up
clarity
understanding
you're coloring to add
dimension
don't fear
coloring
outside of the box
there
I AM
wider
vaster
the box is not even a box
upward into my calling
upward into my mysteries
upward into my desire
where you're going
for I've know from the beginning
this is read from the end
tell the story
go
for My glory
stretching you
upward
stretching you

I've been there
all the time
I'm waiting
go!
don't fear
the appointed time has come
run with the vision
it's time to
close the gaps
pick up your tablet and write

“Any Way You Look At It – It’s Time!”

*this poem may be read
from top to bottom
or vice-versa
every time
you look at it
in a new way
you'll see it
a new way
my God
can't be punctuated
any way
you look at it
it's time!
